

## Books

### BOOKS:

I love co-authoring as it is part of the core of who I am in living out the values of collaboration and co-creation. I therefore, have done a few collaborations with some of my passions.

**I have three main passions when it comes to writing:**

#### **The Art of Social WE Media:**

Social Media is a powerful tool for connecting with others, creating exposure for yourself and your business and it allows people to find out who we are, what are our passions, values etc... The "**SOCIAL**" in social media means "**WE**" I therefore, also write about the importance of the "**WE**" - collaborating with others etc...

#### **The Art of Conscious Business Collaborations:**

We Leadership, communication, collaboration and connections.

#### **The Art of We Are All Interconnected:**

I, therefore; love taking pictures of mother nature, flowers, trees, architecture etc... and writing picture quote books using my images and quotes.
