

TESTIMONIALS

***Event Production Coordination, Producing, Directing:

You should work with Carly Alyssa Thorne because she's efficient, she's professional, she's detailed, she's a problem solver that addresses and provides solutions in a very stealth and professional fashion. She's done an unbelievable job in regards to helping me coordinate these events not only from the frontlines, where we're actually performing for the residents, pre-organizing the event, as well as after the event in making sure the website is up. So, pretty much from start to finish, she's involved in many aspects and wears many hats and does a fantastic job.

When Carly is in the loop, she has a special way of viewing the situation and then, addressing it and then, solving it in a very stealth and prompt and efficient fashion, with no questions asked, with no sweat. She's unbelievable, like nobody I've dealt with in 40 years. Nobody can problem solve and come up with ways of addressing the situation in a very stealth and efficient fashion like Carly. Very few can take from the small, minute details to when you're in the actual event itself to organizing, addressing different situations that come up throughout the course of the festivities to then, getting back, doing the details, and putting them online. Getting them set up, getting the proper credits, et cetera. A to Z. It's unbelievable.

One thing that I found, when dealing with her, she can do these incredible, I call it magician taking rabbits out of hats and creating miracles. And, she does it with a smile and she does it very stealthily. And that's one thing that I found I really enjoy is that getting the objectives handled in a very stealth and efficient and steady way. I found her to be incredible in all those aspects. And I really enjoy that. Vincent Leinen - Encino, CA.

***Life Coaching and Business Consulting:

You should work with Carly because she will help you in pretty much every area of your life, ranging from personal to business. She's really helped me see things differently. Whenever I've had concerns, she's helped me deal with it and look for alternative solutions for them. She's been extremely helpful. She's helped me in many areas of my life.

She has been very helpful for some business decisions. Whenever I write an e-book she helps me with the title as well as the styling. She is excellent with product launches. She gives you ideas.

If you do have a problem, she will help you through it. She's actually taken care of things that have flipped me out. She's very patient. She has a very down-to-earth, spiritual side, as well. She gives you an opportunity to see the big picture. She gives you the opportunity to create a different perspective, instead of just the perspective that you're used to.

***Business Organizational Consulting:

"In my fast paced business, the daily grind requires decisive action and commitment without hesitation. Well, to be honest my business was suffering from many things. We had poor financials, high staff turnover and a general lack of business focus and enthusiasm. Hey, the place was feeling pretty boring and not too happy. Looking back, I am certain that this came from clutter and

disorganization in the office. How do you recognize bad energy when you work in it every day?

We brought Carly in to consult on organizing a few of the offices. She came from a personal recommendation. During the first meeting, it became clear we had a great opportunity to transcend and change everything about the feelings and attitudes in our office. WOW what energy, what vision, great plans. We all got so excited. Carly helped us to sort through months of business debris and paper. In just a few short days we were able to remove trash bins of the physical clutter.

Can you imagine the release? Now, all our work spaces are more organized. Our entire staff wants to be involved. Now we are able to get focused on the key business issues. Employing Feng Shui principals, Carly helped to create a clean office, clear minds and more productive work space. Now I sit back and enjoy the results. In the 3 months I have used Carly my business has grown, profits are better and most important, my staff has become charged and self empowered. These are wonderful dynamics, caused by her skills and forward moving approach." Marketing Minds- Westwood, CA

*****Life Coaching:** There is absolutely nothing ordinary about this lady. She rocks, and on so many levels. "My path to seek a more spiritual healing directed me to Carly Thorne. Me, I am a busy executive experiencing intense life changing situations. Prior to working with Carly I had bumbled aimlessly. Yes, I had issues, physical pain caused by an awkward exercise program, poor eating and other abuses. Mentally, my mind had become soft and complacent, almost docile. Recalling this saddens me.

Enter Celestial Carly and the healing angels. She did some amazing massage, energy and healing work. Physically my body responded with huge break through just after the first session. Open the senses and the mind follows. More sessions and my body became much more open and my energy charged. Then, I started eating the recommended supplements and organic food. What an amazing difference. In a month I was lighter, vibrant and live with more energy. I feel healthy and great.

There is absolutely nothing ordinary about this lady. She rocks, and on so many levels. Prepare yourself for the whirlwind of information. I hope you can listen well; because you will get what you seek. Your first session with Carly will be mentally stimulating; you will find she has volumes of expert teachings and healings to share with you. Your appetite will be satiated. My experience was to be open and receive; I cannot begin to tell you the abundance of spiritual and healing information delivered to me from Carly. It is as if she reads your mind, with clairvoyant anticipation of your questions she responds with helpful books, useful tools and audio in hand. Follow the path; the dynamic change you desire will occur and change will happen. Now this Warrior is empowered, has visions, can heal and perceive so much. Life is rich. Nurturing is good. Thanks- Namaste Carly"

*****Life Coaching:** "I have been working with Carly for a little over a year and thanks to her I now realize how beautiful life truly is. She has made herself available to me all day, every day and has never once told me that she couldn't talk or was too busy. She has a perspective on life, that very few possess. I have very quickly seen my life change thanks to her in a very short time.

My businesses, life, family and mental state has been on a nonstop increase since we first met. I was extremely skeptical when she told me what she did for a living, never having been a spiritual person. But after a short time of speaking with her I knew my life would never be the same, and I know I could never go back to being the stressed out, over worked person I used to be.

I now see life differently, embrace the high times and release the low times. The process getting to my current state was definitely a bumpy one, but she held my hand across every bridge, and pushed me up every mountain, she even caught me a few times when I was about to fall. There's no thank you strong enough I could give her, other than this letter. I felt obligated to tell the public how dramatically she has changed my life.

I make a tremendous amount of difficult decisions per day, I used to think about work all day every day. I never smiled, never laughed, and never just took a deep breath. Carly has changed me, I now am living, as before I was just dying a slow death without ever having really lived.

So from my family, friends and myself-Thank you, for letting air in my lungs, happiness in my life and love into my heart."
Forever Grateful Grant,

International Business Executive California/New York

*****Life Coaching:**

"She takes a no nonsense yet compassionate approach,"

I have been working with Carly since January 2013, and I must say, this has been a life changing year. I have been faced with some challenges that I have never had to face previously. However I will say this. If I had experienced some of these challenges I am going through now even a year ago, I would have wallowed in self pity and would never have seen the light. I definitely would have caved in. That being said, Carly has helped me not only get through these challenges, however she has helped me reclaim my power that I never knew I really had to begin with. I have to say 2013 has been a major year of self discovery and enlightenment. I owe it to Carly to help me get to that! She is not any ordinary life coach that only tells you to think positive no matter what. She takes a no nonsense yet compassionate approach, and she is spiritual yet very practical and down to earth. Highly recommended. Life Coach Client, Ontario, Canada.

Her valuable wisdom comes from extensive training in a wide variety of techniques, and amazing life experience which she puts to good use according to what YOU need. I highly recommend Carly if you want to make efficient, enlightened progress!

*****Consulting: "Carly is positive AND practical."**

I've worked with Carly to create multiple training programs. The remarkable thing about Carly is that she is positive AND practical. She'll call people out on their negative habits and show them how changing those will help them. A lot of positive coaches are more rainbows and unicorns. Her strong practical streak helps clients get results. She helps people recognize what's holding them back AND shows them how positive attitude and actions drive transformational change.
