I am as I have been coined "Straight Talk with Carly Alyssa Thorne".

Carly's daily Motivation for getting up each and every day with a smile is her passion for inspiring and empowering others to Live a full out, open, aware, fun, compassionate, passionate, giving, loving, healthy and abundant life.

Take some of these mantras - statements on and see how they feel - say them out loud. They all sound like lies to us at the beginning, start taking action steps towards them, keep on doing them, and after time you will believe them and believe in them.

What does "Cocoon to Flight" mean?

"Cocoon To Flight" also applies to any given idea, concept, project, business, timeline - you have 8 hrs at work, a week to deliver a project that timeline is the cocoon, the delivery of the project, product is the flight. The cocoon is the time you are germinating, brainstorming ideas concepts etc... this time is crucial.

We learn best through Playing ~ Creativity, I then incorporate play and creativity into the cocoon phase which delivers some amazing brainstorming sessions, and ideas that come out are brilliant. Remember at any given time throughout the process we all still have the CHOOSE To GROW or Not...

AND... All of this happens via Creative Conscious Co-Creation because in the end, Life is all about Co-Creating with others I can't do any of this without YOU or others... and neither can

You... as We are all ONE-interconnected and Team Work is what makes the Dreams Work...

Therefore that is why I came up with the process of:

Cocoon to Flight Thru Learning, Playing & Growing Thru Creative Conscious Co-Creation.

Carly lives her life from a Paying it Forward - The Ripple Effect mentality each and everyday.

Carly believes that life is all about sharing our wisdom, collaborations and teamwork. Carly started out in 1982 in psychological and behavior development, health, wellness, and fitness industry working with the acute disabled population. The Spirit of the disabled empowered Carly to Transform her own inner conflicts from having grown up with many health and medical problems since birth & having grown up with sexual, verbal, and physical abuse. Things came to a head medically in 1982 when surgeries began which has led to over 30 Surgeries over her lifetime to date. It was her work with Hospice in 1984 that led Carly into the endless rabbit hole of The Mind, Body, Spirit interconnectedness.

Carly then took all of this knowledge into her first Conscious Business in 1985 a new thought Preschool called - Learning, Playing and Growing. Having gotten the entertainment bug early on in life playing with children was a perfect platform for Carly's outlet for creativity. Fast forward to 2000 continued her work with high powered executives with the Fitness Company at World Trade Center consulting with clients who had medical problems. After 9/11/2001 Carly opened Celestial Wellness and Fitness Studio- A Boutique one stop shop Mind-Body-Spirit center for Whole Body wellness. After Carly's one hour miss of being right in the Middle of 9/11 Carly got crystal clear on a few things. "Life is precious and I want to reach out to as many people as I can through consulting and media." With that being said, after a few years of Bi-Coastal NY-CA living in 2004 Carly began the full time journey of consulting, producing, directing in the entertainment industry on the Mind, Body, Business, Spirit Interconnectedness and the Multi-Sensory and how to apply it in all areas of ones's life and business.

Carly has been "The Transformationalist behind the curtain" for years, having signed numerous Non Disclosure Agreements from working with some Top Speakers, Leaders, CEO's, various Productions and Fortune 500 Companies.
